Sept. 21, 2018!**

**Kira –Cane, Sword, and Finger Cymbals
Sept. 21, 2018 7:30 P.M. – 8:45 P.M.**

Props are an exciting part of this dance. The sword is a prop that fascinates audiences of all ages and backgrounds. This class will cover balancing techniques, turns and travelling combinations utilizing the sword. The next prop that we will use is the cane. Combinations will be taught utilizing the cane as well as proper techniques for loosening the wrist so that better techniques for cane twirling can be done. The last prop that will be covered will be zils. Zils are a percussive instrument, so drills will be done so that the dancer/student will develop better dexterity. This class is full of information, and geared toward dancers of all levels.
